No Money. No Justice.

We were always of the idea that the administration of justice was an object of the highest importance to the public, and that the question of its cost was one of a secondary nature. It would seem, however, that our Police Commissioner entertains quite a different opinion on the subject. If one were to judge from appearances, one would say that Mr. Pemberton's idea is that he is not obliged to entertain any charge of a criminal nature against an offending individual unless the expenses be guaranteed before hand. His motto would seem to be "no trust here!" "Let justice be done, though the heavens should fall," was the saying of a period less enlightened than ours. It would seem, however, that as the world grows older and wiser, that maxim can no longer be entertained. In some countries they are still foolish enough to adhere to the old idea; where, if a man is charged with a crime, he is compelled to appear and answer for it, be the complainant rich or poor. No criminal is suffered to escape through the inability of the prosecutor to pay costs. There the strong arm of the law does not require dollars and cents to put it in motion; the public pay for the administration of justice, and they leave it free to all if necessary. Here, however, a man may be kicked and cuffed by any brutal ruffian, and if he is too poor to pay the price of a summons or war rant, he has no redress. Is it for that the Colony pays to support a stipendiary magistrate? Is that institution a speculation which must be made to pay at all events? Is the miserable style of false economy which pervades our mail system to be extended to the administration of justice? We hope we shall not have to chronicle another instance of the denial of redress such as that mentioned in our local columns to-day. We expect some thing better in a British Colony.

English News. By the arrival of the steamer Sierra Nevada we have details of English news to September 6th, being one week later than the last. We perceive that Her Majesty, by an order in Council, has authorised Horatio Nelson Lay and Captain Sherard Osborn to enter the Lay and Captain Sherard Osborn to enter the service of the Emperor of China and to enlist British subjects to fight in that country. Mr. Lay, who represents the Chinese Government in England, and Capt. Osborn, who is to be Commander-in-chief of the new auxilary forces, are making arrangements for the formation of a fleet. Quite a number of war vessels have already been purchased by them and orders. a fleet. Quite a number of war vessels have already been purchased by them and orders given for more. The International Temperance Convention had commenced its sittings at Hanover square Rooms, London, under the presidency of Sir Walter C. Trevelyan. The plan of the convention is very much like that of the Social Science Congress. The South Australian Parliament having addressed the Impacial Government, praving the dismissal of Imperial Government, praying the dismissal of Judge Boothbry for erroneous decisions, it was submitted to the law officers of the Crown, who considered, taking all circumstances into consideration, that the Crown would not be consideration, that the Crown would not be well advised to accede to the address. A Liverpool ship-owner, named Ruxton, has been committed for trial, charged with being accessory to the willul destruction of one of his own years with the internal of the constraints. eessory to the wilful destruction of one of his own vessels, with the intention of defrauding the underwriters. The vessel, which was called the Rosede, was destroyed by fire, according to his orders, when within a few miles of Smyrna. From the Manchester Guardian we learn that Miss M. S. Rye, so well known in connection with the Female Middle Class Emistration Society is now endeavoring to send connection with the Female Middle Class Emi-gration Society is now endeavoring to send out to British Columbia a number of those young women who have recently been thrown out of employment in Manchester. She has now upon her books over a thousand names of young women, principally of the working classes, whose ages range from 18 to 30. The ordinary passage-money to British Columbia is £25. Mr. Lindsay, M. P. has consented to reduce the fare by £5 each of Miss Ryc's nominees, and has also arranged that if Miss nominees, and has also arranged that it Miss Rye will pay £10 for each young woman she sends he will take an I. O. U. from the girl herself for the remainder. Miss Rye had, in consequence, determined if possible, to send fifty young women from Manchester to British Columbia on the 15th September. An Agriculturist who has travelled through the country, writing to the *Times*. says, in speaking of the crops, "my opinion as to the general produce of this harvest in England is that we shall have a wheat crop from six is that we shall have a wheat crop from six to eight bushels per acre below an average, and of a shrivelled and inferior quality; barley, ten bushels below an average; oats, from four to six bushels; potatoes ten to twenty per cent. above an average and less disease by fifty per cent. than last year." According to the European Times, the imports of wheat into the United Kingdom up to the and of Inly was 4512 3210 centers above. the end of July was 4,513,821 quarters, showing an excess of about 3½ per cent. over the extraordinary importation of the corresponding period of last year, and of more than 137 per cent. over those of the same month of 1860. Since the end of July the arrivals from America have continued to be of remarkable magnitude, and will present the

sent into the cotton districts to make inquiries. They calculate that the diminution of wagos in the distressed districts during the coming winter months will be at least £150,000 a week; and they state that when the distress has reached its height it will require advances at the rate of £100,000 a week to keep the population from starving. The Lords of the Admiralty intend to abolish the full dress uniform at present worn by the officers of the navy and substitute in its stead a noat tunic. Home politics attract little attention, all parties have pretty well delivered themselves during the last session, and are now enjoying a season of rest.

Police Court.

WEDNESDAY, October 22d. Alexander Brown was charged by officer Robertson with supplying liquor to an Indian. The prisoner had been observed to receive something from the Indian after a short con-

soniching from the Indian after a short conversation, enter a liquor saloon, purchase a bottle, and give it to the Indian.

The prisoner pleaded guilty, but said that he had only been seven days in Victoria since his return from Cariboo, and having arrived from New Zealand this season, he was unaware of the local law. He had received no benefit from the act, but was just fool cuough to oblige the Indian.

The magistrate crossomestioned him with

The magistrate cross-questioned him, with the view of ascertaining the truth of his statement, and then stated that he felt convinced of its correctness, though for the vindication of the law he may be a second or the stated.

of its correctness, though for the vindication of the law he must impose a penalty upon him. Fined, £5; in default of payment to suffer one month's imprisonment with hard labor. Edward Lambe, arrested on a warrant by officer De Cecil on Tuesday, was charged by Samuel Raymond with having violently as-saulted him. Mr. Dennes appeared for the presecution.

The complainant being sworn, said that the prisoner entered his saloon, applying to him an offensive epithet, and struck him across the counter; he ordered him out, upon which the prisoner drew a knife and came towards him, saying he would "cut his heart out."
He then knocked him down, but the prisoner getting up to pursue him, he ran out of the house, while two bystanders restrained the prisoner from further violence. The prisoner afterwards had threatened to lay in wait for him, and had been seen by another lodger to load a revolver, so that he (complainant) had feared to return to the house that night, believing that his life was in danger.

The prisoner pleaded guilty, but said that he was drunk at the time the offence was committed.

The Magistrate accordingly fined him £5

for the assault, and ordered him to furnish his own recognizance of £20, and two securities in £10 each, to keep the peace for

JUSTICE AND THE POOR MAN .-- On Tuesday afternoon application was made to the Police Magistrate for a warrant for the arrest of the second mate of the Sierra Nevada for an alleged assault, but Mr. Pemberton declined to issue one without the payment of a fee of \$3 50, or the complainant furnishing security for his appearance to prosecute. This the applicants was unable to procure, so that he was virtually denied the boasted protection that our laws confer upon all classes. The following are the facts sworn to in his information:—He, Thomas Burrell, was assisting matton:—He, Thomas Burrell, was assisting to discharge the freight, when, in throwing a line, he accidentally struck the second mate, who was standing between decks, on the head with the rope. The mate looked up and swore at him, upon which he apologized, stating his regret at the occurrence of the accident. He was however ordered on shore and as he was, however, ordered on shore, and as he turned to leave, the second mate kicked him. He turned round and dared him to repeat the attack on shore. The second mate accordingly seized a hammer, with which he knocked the complainant down from behind. His teeth complanant down from behind. His teeth were all loosened, but he believed this to result from a kick while he was down, not from a blow of the hanmer. He was not aware of the assaulter's name, but offered to point him out to a police officer. Yet, as we stated before, no warrant was issued for the want of \$3 50 wherewith to pay the costs.

The "Asumore."-The prosecution against the captain of this vessel came up on a fresh summons in the Police Court yesterday morning, on the information of Mr. Wooton, the Harbormaster, who charged the defendant with breaches of the 26th, 35th, and 62d sections of the Passenger Act, 1855. The com-plaints embrace deficiency of light and venti-lation, departure from the dictary scale, and selling liquors to the steerage passengers.

Mr. Drake appeared for the prosecution, and

Mr. Bishop for the defence. Before the case was gone into, the magistrate stated that he was gone into, the magistrate stated that new as favorable to such matters being settled out of court if possible. The counsel, after conferring for a quarter of an hour, agreed to submit the case to arbitration, and the summons was accordingly postponed for the present. Twenty-nine names are appended to the list of passengers seeking compensation.

YALE ROADS .- While the Governor was at Yale, a proposition was made to him to have a road constructed from Emory's Bar to Yale, a distance of four miles. The Governor was favorably impressed with the project; and it is supposed that a call will be made for tenders to complete it. The rock at Sawmill Riffic is to be blasted. In three weeks the road around the bluff above Yale will be completed. When the contracts of Trutch and

road around the bluff above Yale will be completed. When the contracts of Trutch and of Spence and a suspension bridge across the Fraser 2 miles above the ferry, when all arc completed, as they will be by next spring, a wagon may be driven from Yale to Lytton. A rumor has it that the forfeited road contract of Oppenheimer & Co. will be awarded to Moberly, in connection with Messrs. Trutch and Spence. The workmen on the road have lost nothing by Oppenheimer decamping.

The Theatre.—A change of management has been made at the theatre, Mr. John S. Potter being now acting and stage manager. To-night will be the first of the regular dramatic season, and the company having been re-organized and enlarged, a great improvecement is promised. Miss Lulu Sweet, the popular young actress, will again appear before the public, and will take a benefit. Mr. B. S. Mortimer, an old favorite in Victoria, will also appear for the first time this season. The comedy of the "Honey Moon" and the farce of the "Spectre Bridegroom," will be performed, and popular songs and fancy dances will be interspersed. Altogether a most attractive bill will be given, and we would advise every one to go who can.

MINING NEWS.

LIGHTNING CREEK.

A reliable gentleman recently from Lightning Creek, which he left on the 7th Oct., informs us that only four companies were at work when he left; the German Co., California Co., Campbell Co., and the Shaft Co. The latter is supposed to be the best claim on the creek. The shaft from which it takes its name is sunk 35 feet in the side of the hill. With three men drifting they have taken out 130 oz. in a day; but about 100 oz. is a fair average of their work. The California Co. has struck the same lead by running a tunnel into the hill from their creek claim—the bed of the creek. They took out a lump weighing 14½ oz. The German Co. has been working ever since spring in this creek. It is supposed they averaged 40 oz. per day. The Campbell Co. have worked out the poorest of their ground; but next year they expect it to pay as well as any claim in Cariboo. They know it is rich beyond a doubt. It averaged about 70 oz. a day from the 5th July to the time our informant left. Over \$100,000 has been taken out of this claim in three meater. Le expense of fornia Co. has struck the same lead by runclaim in three months. The expense of opening it this year has been \$25, 000, so there will be no expense for opening

next spring.

Good bench diggings were discovered about the middle of September on the hill's side above the Campbell Company. It is on the opposite side from the Shaft Com-

they are in the creek.

The Campbell Company took out \$4000 from thee feet square on the surface of the

bed rock!!! Fifteen or twenty persons are expected to winter on the creek.

There are several parties who intend to

prospect in the hills during the winter. BARKER CLAIM.

It is down below the cañon on Williams Creek. It was once supposed there was no gold below the Cunningham claim, nor above the Steele claim—about half of a mile. The Barker is a mile below the Cunningham claim. Three was taken out with a single pick going day and night in one week, 1700 cunces of gold dust! A shaft is sunk on the lead, and one drifter sent below.

POINT CLAIM.

Griffin & Co., on this claim, washed up 300 ounces in an eight hours' washing. JACK OF CLUBS CREEK.

Hardy, of Westminster, struck first rate diggings on this creek a few days before the claims were laid over. The lowest prospect was \$3 to the pan. The whole creek in the vicinity was taken up.

WILLIAMS CREEK.

WILLIAMS GREEK.

The Victoria Mining Tunnel Co. cn this creek have run in a shaft 110 feet, five by six, and within 40 feet of the lead. The elaim is about a mile and a quarter above Richfield, and a quarter of a mile above Major Downie's claim. There are six shares in the company, holding in all 600 by 300 feet. The lead has been struck in the next claim by Lackins and Traverse on the rim claim by Larkins and Traverse, on the rim rock—rock pitching, and a prospect of \$2 and \$3 obtained to the pan. In Traverse & Co.'s claim any of the dirt for five feet above the bed rock will pay three, four and five bits to the pan. Mr. Williamson, a 58-resident of this city, assures us that he prospected it himself; and, moreover, that it will last ten

himself; and, moreover, that it will last ten years.

The old pioneer, Major Downie, returned from Williams Creek on Tuesday, which he left on October 5th, and Van Winkle on the 6th. The weather was cold. Ice had formed in the sluices, stopping work. The Major is very modest about the claims of his company. They own 10,000 square feet—ten years work ahead. \$1000 has been taken from five feet square on the bed rock. He is washing from the prospect shaft, and has run drifts in various directions. Oaly half run drifts in various directions. Only half of one claim, 100 feet, has been worked this year. But to convey a lively idea of the claim, the Major assures us that two picks a "shift" turn out \$800-in other words, as the

work is pushed on night and day—the twenty-four hours would turn out \$1600. Not bad for the Old Pioneer.

It is the intention of Major Downie in the spring to bring a ditch carrying 2000 inches of water into Williams Creek from the tributaries of Swift River. The ditch will be butaries of Swift River. The ditch will be ten miles long, and the place it is brought from is the only available one for working Williams Creek

HOUSE OF ASSEMBLY.

WEDNESDAY, Oct. 22, 1862.
House met at 3:30 p. m. Present, the Speaker and Messrs. Franklin, Tolmie, Cary, Burnaby, Foster, and Ring.

ESQUIMALT ROAD.

Mr. Foster asked the Attorney General when the work on the Esquimalt road would be proceeded with, remarking that the daily increasing traffic between Esquimalt and Victoria, as well as the lateness of the sesson, demanded that the undertaking be commenced without delay.

Mr. Caryreplied that arrangements had been completed that had but awaited the return of the Governor from British Columbia to be effected. The works on the Esquimalt road would in all probability be commenced in the beginning of next week; nor on that read only.

House in Committee of the Whole upon the bill to repeal and amend the laws affecting trade licenses. The following section of the bill first came under consideration:

All persons selling goods, merchandize or merchantable commodities consigned or delivered to them by other persons for sale, whether by public auction, or private contract, shall, on the 31st of January and the 31st of July in each and every year, make a separate and distinct return to the Assessor at the treasury of the amount of money, or equivalent for money, received by them during the past half year, ending on the 31st of December and the 30th of June respectively, in respect of the goods, merchandize, or merchantable commodities sold by them by virtue of such consignment or delivery, in the form marked F in the said Schedule, and shall pay into the Treasury an amount equivalent to one-fourth of one per cent, upon the amount so received.

Mr. Burnaby rose to draw attention to the way

Good bench diggings were discovered about the middle of September on the hill's side above the Campbell Company. It is on the opposite side from the Shaft Company, but further down. They prospect well from 50 cents to \$5 in the gravel. It is supposed to be the old bel of a creek. The bench is about 200 feet above the level of the bed of the creek. That shows there is no danger of the country wearing out.

Any one may take a pan and find the color of gold anywhere in the hill side of Lightung Greek.

The Upper Cañon claim paid tolerably well. There is not a claim between the Campbell claim and the upper cañon, but must be a success—the distance between those points is about two miles.

The bench diggings and tunnels have opened a new era on Lightung Creek.

Mr. Burnaby begged to state that every merchant had hitherto returned and paid the tax upon his business transactions, including consigned goods among those specially imported.

Mr. Cary said if this were the case they had paid more than they were asked; and asserted that from the wording of the former act consigned goods had not been included, and appealed to Mr. Ring to confirm his opinion, which the learned gentleman did.

Mr. Burnaby and the other members however retained their former opinion upon the meaning of the clause.

retained their former opinion upon the meaning of the clause.

Mr. Helmeken then stated his surprise at the attempt on the part of the Attorney General to encroach upon the Free Port system. It was wrong to depart from a principle. They had been told the taxation would not be felt—"it was only such a little one" [laughter]. Nevertheless, it would be a precedent, Just now, when English houses were shipping so freely, it would have a most disastrous effect; merchants in England would hear that the principle had been broken, and would fear lest further encroachments might follow. This proposition of Mr. Cary's was tantamount to an acknowledgement that the Free Port system had proved a failure. The Government was altogether too expensive. If in paying a tax upon the consigned merchandize, hitherto merchants had been in error, surely at this time it was very imprudent of the learned gentleman to hazard an opinion. With respect to the tax being imposed upon goods for sale by auction, he did not see any valid objection.

Mr. Cary then acknowledged that he had committed an error in the proposed tax. His object had been to tax the man not the goods. He intendep not to devote the additional revenue to the Government but to the rendering the resources of the colony available. The colony had hitherto owed more to Providence than any other countrhe had heard of. He wished soon to have money with which to subsidise a steamer to visit the coast settlements. [Hear, hear.]

Mr. Foster said he had frequently heard Mr. Cary declare that if Vancouver Island ever attained greatness it would owe its elevation to the Free Port system. He was therefore astonished at the proposition for encroachment just enunciated. He agreed, hitherto the colony had almost been left to providence, but did not approve of such negligence. He regretted the Government did not possess the confinence of the House. He then alluded to the circumstance of government taking advantage of the mistake of the merchants by eccepting the return including consigned me

The Committee then rose and reported progress

A message from the Legislative Council was read announcing the passage of an Act to prohibit Sunday trading.
Laid on the table.
House then adjourned until to-day at the usual hour.

EDITOR BRITISH COLONIST:—In reply to the curt communication in your paper of this morning, I have the following answer to make:

I promise to play this gentleman (Mr. Frank E. Howlett,) for a champagne supper or for "dollars," if my first proposition is accepted, according to the rules prescribed in said proposition.

If the "new-comers" feel inclined to make a few hundred dollars in an easy way, perhaps, by accepting said proposition, they will be gratified beyond their most sanguine expectations.

I remain, Sir,
